

CAN MASSANA

The last vineyards acquired by the Juvé & Camps family include Can Massana, Alzinetes, El Prat, Mas Pagès and Can Soler. 138 acres which are all located in the highlands of Mediona, at 500 to 750 metres above sea level.

The area's soil characteristics, combined with significant shifts in daytime and night-time temperature, provide excellent conditions for the indigenous Parellada grape. Parellada old vines, planted on stony soils, allow this variety to achieve remarkable fineness and balance.

Mediona semi-continental microclimate is also perfect for growing Chardonnay, Sauvignon Blanc, Gewürztraminer and the red varieties like Cabernet Sauvignon, Merlot and Syrah.
